Memorandum
July 1, 2021

TO: All Employees
FROM: Human Resources
SUBJECT: Fraud Alert

State law requires that school districts and public agencies establish a method for employees to report suspected fraud. The American Institute of Certificated Public Accountants states that one of the most important steps in protecting any organization from fraud is to provide a mechanism for reporting suspected fraud and unethical practices.

As high ethics and integrity are very important, the District and Board encourage you to support this program. We all play an important role in protecting the assets of our District. If you suspect inappropriate use of District funds or resources, please report it to:

Workers' Compensation fraud
(855) 495 – 1550

Thank you for doing your part to protect the integrity of the Fowler Unified School District.
