1 = Funding for projects are not guaranteed beyond the local revenues generated by the bond measure. Completion of some projects depend also upon state and federal participation/ funds not within the control of the school district

2 =The list is not exhaustive, but illustrative, of some of the projects being considered

3 = If state funding is available

4 = If state funding available and/or growth at elementary (grades TK-5) schools makes District eligible for state funding and enrollment capacity at each school site is reached during the next 4-8 years
